

## WHO ARE WE?

Infocura is a Belgian company founded in 2011, that offers the full range of data management services. Our consultants are certified information management specialists delivering data management services to organizations of all sizes, both in private and public industries.

**We are currently looking for Data & Information Management Consultants to reinforce our team.**

## WHO ARE YOU?

Are you a team player, a born problem-solver, passionate about data management and eager to make the difference at one of our clients? Have you always wanted to be part of a team of top experts that are passionate and proud of what they do? Do you dream of working for a company that considers their employees as their most valuable asset? And above all are you anxious to learn and ready to be challenged?

**Then let's meet.**

## WHAT DO WE EXPECT?

**Ideally you would have:**

- Technical knowledge:
  - In the domain of data movement or warehouse design.
- Experience with
  - ETL and ELT
  - Real time data synchronization and replication
  - Performance during massive data ingestion or movement
  - Technical datawarehouse desing for optimal performance
- The willingness to deepen your technical skills with regard to data platforms and their requirements
- The willingness to share your technical skills with the other members of our team
- Ability to work autonomously and efficient
- Good knowledge of Dutch and English or French.

## WHAT DO WE

You will be part of an open, people-oriented company where your voice actually counts. We strongly believe that loyal employees are worth much more than their weight in gold and therefore we take pride in being loyal too.

Besides a competitive salary you can count on a number of extras such as a group and health insurance package, eco and culture vouchers, daily allowance and a company car.

Anxious to learn more? Do not hesitate and send your resume and motivation to [tinne.vlaeyen@infocura.be](mailto:tinne.vlaeyen@infocura.be) or dial +32(0)472 13 47 61.
